**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 18 September 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 5, 6, 9, 11, 15, 16, 31-33, 35, 38, 39, 40, 42 are rejected under 35 U.S.C. 102(e) as being anticipated by Morrissey et al. The patent to Morrissey et al teaches structure as claimed including a fastener comprising a turn prong and tip, slotted cap (15).

Claim 17 is rejected under 35 U.S.C. 102(b) as being anticipated by Bush et al. The patent to Bush et al teaches structure as claimed including a plurality of prongs(figs. 2, 3), a fastenable material (the structure around the periphery of the two attached structures), the first and second prong commonly fasten onto the fastenable material..

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-12, 15, 16, 27, 28, 31-33, 35, 36, 38, 39, 40, 42, 46, 47, 50, 51, 52, 55 are rejected under 35 U.S.C. 103(a) as being unpatentable over Katz. The patent to Katz teaches structure substantially as claimed including a rotary fastener comprising a turn prong and tip the only difference being the "amount" of turn. However, the "amount" of turn is a matter of desirability since such "amount performs equally as well with no unobvious result, further such results being predictable and well within the level of ordinary skill in the art..

Claims 1-12, 15 16, 31-33, 35, 36, 38, 39, 40, 42, 46, 47, 50, 51, 52, 55 are rejected under 35 U.S.C. 103(a) as being unpatentable over Morrissey et al. The patent to Morrissey et al teaches structure substantially as claimed including a rotary fastener the only difference being the "amount" of turn. However, the "amount" of turn is a

matter of desirability since such "amount performs equally as well with no unobvious result, further such results being predictable and well within the level of ordinary skill in the art.

***Allowable Subject Matter***

Claim 18 is allowable over the prior art of record.

Claims 48, 49, 53, 54 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

Applicant's arguments filed 09/18/07 have been fully considered but they are not persuasive.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
